

PRESS RELEASE

February, 2010

Even in Japan Summit Matsu Chilling Systems translates to chiller quality

Excerpt as published in Jarn Magazine November 25th 2009 (Chiller Special)

Leading Manufacturers

Air – cooled chiller for data centre cooling by Summit Matsu

“As one of the leading local manufacturers, Summit Matsu Chilling Systems (Summit Matsu) is pointed out. The company started in 1949 under the name of Summit Refrigeration Products. The present name Summit comes from its history, the name Matsu comes from joint development work done with Hitachi on horizontal scroll compressors. Specialised in manufacturing refrigeration compressors, process and water chillers, commercial and residential refrigeration equipment, the company has many clients inside and outside of Australia. Currently Summit Matsu offers air cooled and water cooled chillers, each one comes with a choice of three different types of compressors: reciprocating, screw, or scroll.”

Summit Matsu Chilling Systems (Summit Matsu) has become recognised globally as a leading chiller manufacturer.

Summit Matsu was thrilled to hear they had been featured in Japan Air-Conditioning and Refrigeration News (JARN) magazine (November 25, 2009) as a leading chiller manufacturer. The article even prompted management at market leading controller company Carel to make contact with Summit Matsu to offer congratulations, and ensure Carel chiller controllers would continue to be used.

Summit Matsu was honoured to hear that their business has grown to the point that even people in Japan are writing about them as a leading manufacturer. Nowadays even in Japan Summit Matsu Chilling Systems translates to quality chillers!

JARN magazine is the only English magazine in Japan that publishes information about the Heating, ventilation, air conditioning and refrigeration industry market products, new technology, major trade shows, and various promotional activities by the global industry leaders. The magazine has been publishing since February 1969 and since this time has become a well informed source for decision makers to turn to for advice on choosing products and services within the industry.

JARN magazine is distributed to countries in Asia, Europe, America, Central and South America, Oceania, and Africa. Readers purchase the magazine to receive advice on what companies they should

select to purchase from, as well as to find out the latest news and technologies throughout the world in the refrigeration and air conditioning industry. A leading Japanese Air Conditioning manufacturer that

reads JARN said that “the news and reports in JARN are authoritative, impartial, and objective.” This emphasizes the credibility and reliability of the information presented to readers of JARN magazine. A Brazilian Refrigeration Equipment and system manufacturer stated that “JARN can give us timely information on the latest trends in this industry and introduces our products to the customers worldwide.” This statement goes even further to point out how readers rely on JARN magazine as a medium to communicate world standards by providing the latest information on where to find the best products to date within the industry.

The credibility of JARN magazine recognised throughout the world emphasizes how significant it is for Summit Matsu Chilling Systems to have been named as a leading manufacturer.

Summit Matsu Chilling Systems has been in the industry now for over 50 years and have worked hard to gain their reputation as the leading manufacturer. Summit Matsu carefully selects the best qualified engineers as well as the best parts to ensure they are creating the best possible product consistently for all of their customers. Based locally in Sydney, Summit Matsu manufactures chillers for a large range of industries including the food industry, plastics, concrete, chemicals, data centres, mining and many more. The chillers can be tailored to meet requirements for even the most unthinkable situations.

More information on similar applications and case studies can be found online at <http://www.matsu.com.au>. For product enquiries please call 1300 CHILLERS (1300 244 553) or +61 2 9698 4666.
